SUMMARY

Built cloud deployment workflows using AWS, Docker, Jenkins, Terraform, and Linux across 3+ production-style projects. Automated operational tasks with Bash/Python scripting, improved deployment reliability through monitoring and troubleshooting workflows, and strengthened hands-on DevOps and infrastructure automation skills.

EXPERIENCE

Careerkick Services

Aug. 2025 – Oct. 2025

IT & Automation Intern

Remote

- Supported backend systems serving **1,000+ users** by validating deployments and operational stability.
- Automated operational workflows using Bash/Python scripts reducing manual effort by **20–30%**.
- Resolved Linux-based runtime issues through debugging, monitoring, and troubleshooting workflows.

Ergon Enterprises

Jul. 2024 – Sep. 2024

Data & Automation Intern

Remote

- Automated reporting workflows across **5+ project sites** using Python-based automation scripts.
- Reduced reporting preparation time by **25%** through workflow optimization and process automation.
- Documented operational workflows and dependencies improving maintainability and deployment consistency.

PROJECTS

CI/CD Pipeline for Multi-Tier Java Application

Mar. 2026 – May. 2026

- Built CI/CD pipeline for **5-service** Java application automating testing, builds, and deployments.
- Integrated Jenkins, Docker, SonarQube, Nexus, Terraform, and AWS reducing deployment effort by **80%**.
- Deployed containerized services on AWS ECS with monitoring, ALB, Auto Scaling, and health checks.

AWS Production-Ready Web Application

Dec. 2025 – Jan. 2026

- Built highly available AWS infrastructure solving single-point failures using multi-AZ architecture.
- Configured EC2, VPC, IAM, S3, ALB, Security Groups, Auto Scaling, and Linux environments.
- Validated resilience through **3+ failure simulations** ensuring automated recovery and uptime reliability.

Travel Planner Platform – Backend APIs & Deployment

Oct. 2025 – Nov. 2025

- Developed backend platform streamlining booking workflows across **3+ user interaction modules**.
- Built and tested **10+ REST APIs** with SQL integration and structured request validation.
- Resolved **15+ runtime issues** using API debugging, SQL troubleshooting, and log analysis workflows.

EDUCATION

Vellore Institute of Technology

2022 – 2026

B.Tech in Computer Science Engineering, CGPA: 8.33/10

SKILLS

Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, GitHub Actions, Terraform, CI/CD, ECS, ECR

Monitoring & Automation: CloudWatch, Prometheus, Grafana, Linux, Bash Scripting, Python, Infrastructure Automation

Networking & Tools: Git, GitHub, TCP/IP, DNS, HTTP, SSH, REST APIs, SQL, Ansible

CERTIFICATIONS

- AWS Certified Cloud Practitioner** - Amazon Web Services
- SQL for Data Science** - Coursera
- Oracle AI Foundations Associate** - Oracle
